

This is to certify that

Flavio Tolosana Hernando

has completed the

English Communication through Transnational Online Projects course
(EnComTOP).
54 hours work

This online course was hosted by the University of Oulu (Finland) from 7 October to 11 December 2024.

This course is designed to enable students to cultivate an entrepreneurial mindset, including an ability to identify opportunities, define problems, design solutions, and describe and present these to an audience. During the course, students develop their communication and negotiation skills in English required for

- team working and collaboration for a specific purpose
- operating successfully in transcultural encounters
- participating effectively in a transnational project.

By completing the course work and presenting a product/solution in the form of a video pitch, participants learn to apply digital technologies for online collaboration.
